

School Clinics

Saskatchewan Field Hockey would like to introduce and develop the sport of Field Hockey within your school!

Saskatchewan Field Hockey is offering you and your students a Field Hockey clinic for a minimal cost. We are focusing on grades 4-12 and no Field Hockey experience is required.

These clinic(s) will be instructed by our *Technical Director and former Olympic athlete*, Raman Grewal. It will consist of introductory skill development sessions/games to introduce the students to the sport of Field Hockey.

We will arrive at your school with all the needed equipment. There is also an opportunity to keep some of the equipment for future school use. This equipment can then be used in the upcoming Elementary Field Hockey League (EFHL) taking place in April-June.

Feel free to contact me with any questions that you have.

Thanks!
